## Additional comments for the team:

I am very happy to work with you. Obviously the reason I am not completely "satisfied with the finished product" is because it is incomplete.

Some more detail over the above:

- ++ I felt that you were understanding the requirements well as well as the priorities to each requirement
- ++ The team worked consistently from one iteration to the next
- ++ There was a lot of enthusiasm and it was great that the team was coming up with ideas
- ++ On time (except because of lecture)
- ++ Had a clear plan and followed it
- ++ Work was distributed across the team
- ++ Meetings had an agenda

Some points for possible improvement

- Sometimes emails were not efficiently answered (also I suggest all the team is kept in email threads)

Feel free to contact me if you wish further comments
